Project

ChemTec One - Testing/Consulting
611 Lunken Park Drive
Cincinnati, OH

Project Number: N1091141

Submitted herewith are the results of the one absorption test conducted with ChemTec One, a reactive silicate, having been previously applied in accordance with manufacturer's specifications. The absorption test procedures were conducted in general accordance with ASTM C 642. The test specimen was a normal weight, air entrained concrete mix that was immersed in water and maintained in the HCN laboratory for the time periods indicated below.

Absorption Result:

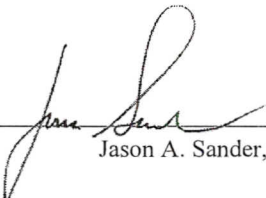

Specimen #1 : 0.18% after 48 hours

Specimen #1 : 0.49% after 56 days
